ART LEAGUE ON PERMANENT BASIS.

The good work started by a group of art students of the three cities a year ago in organizing an art league is leading to definite results. In the new studio rooms of the Tri-City Art league, 222 Main street, Davenport, a meeting was held yesterday afternoon to consider plans for putting the work on a permanent basis. Those present were G. Arthur Stephens and Mrs. William Butterworth of Moline, Hugh Curtis, Mrs. James Connor and Miss Irma Kohn from Rock Island, and Mrs. Harry Evans, Miss Roberta Hostetter, J. B. Hostetter, A. D. Ficke, Edward K. Putnam and S. J. Temple from Davenport. Mr. Stephens presided.

The plan is to have one art league with a large membership to bring together all of the art interests of the three cities. This league will arrange for large exhibitions to be held in each of the cities and assist in encouraging various art activities. The smaller body of those actively engaged in art work will be known as "The Art League Students" which will have its own meetings, officers, members, etc., and which will have the care of the league rooms. Active membership

in one of the bodies will entitle the holder to the privileges of the other. In order to secure the large membership desired, a committee consisting of S. J. Temple, Miss Hostetter and Edward K. Putnam was appointed to work out detailed plans. They will have the cooperation of local committees in each of the cities.

Several of those present yesterday visited the newly opened rooms of the league for the first time and were impressed by the artistic atmosphere of the place. It was suggested that the furnishing of the rooms could be completed with less expense by contributions from those who happen to have in their homes some article of furniture no longer in use, but still serviceable.

HEART and HOME PROBLEMS

MRS. ELIZABETH THOMPSON

Dear Mrs. Thompson: I am 17 years old and live next door to a boy two months my senior. This boy is a perfect gentleman. He has always been nice to me and we have grown to think a great deal of each other. He is in his third year at high school and he has asked me to wait until he is through school and old enough to go with me, and I promised. Did I do right?

This boy works all through his vacations and pays his board to his parents, and with money he has over he gets his clothes and books. I wanted him to have a ring very badly, because he is so careful of his hands and keeps them so nice. I knew he would be proud of one and so I bought him a nice ring for his birthday. I have a good position and make good money. I pay my board, have some money in the bank and didn't scrimp myself by getting it. I had no other reason but that I wanted him to have one, as I knew nearly all the boys in high school had one. Now his mother won't let him wear it. She says that it is a sign of engagement. Please tell me if it is and if his mother is doing right.

GIRLIE FRIEND.
Conventions go contrary to some of the finest, sweetest impulses we have and say that we must not do what we want to do so much. You should not have given the boy the ring, because neither boys nor girls accept jewelry from each other unless they are engaged. The ring was not a sign of engagement, however, because men do not wear engagement rings. His mother has a right to insist that he accept nothing that would put him under obligation to you. A boy of 17 is not old enough to show attention to a special girl friend because he is sure to change his mind.

Dear Mrs. Thompson: I work in a private office where there are two men. One is quite jolly and very humorous, and is always saying things to make me laugh. Now I think it is a fine thing to be able to laugh and quit, but when I get started I just can't stop

Steady!

Whatever our toil—indoors or out—on big jobs or little: we need patience, tranquil nerves, strength of body and presence of mind.

We need keen appetites and good digestions. We need to keep mouth and throat moist and refreshed, the teeth clean and breath sweet. In other words, we need WRIGLEY'S!

For there's where this wholesome, flavor-lasting, impurity-proof refreshment is worth its weight in gold. Yet it costs but a mite.

THINGS WORTH KNOWING.
When cleaning woodwork, baseboards and moldings especially, place a piece of tin about three feet long and a few inches wide tight up against the board to be cleaned. Hold it with one hand and clean with the other. Damp or oily cloths may be used without danger of soiling the paper on the wall. Also more work may be accomplished in less time than if one has to be so very careful of the paper.

A GIFT CHILDREN CAN MAKE
Any small child can make a very pretty and useful Christmas gift by taking a long, narrow, two-quart grape basket, on each side fasten a quart strawberry box.

Line the compartments with a pretty soft material, such as cretonne or silk, covering the sides with frills of the same material. Wind the handle

all around with strips of the material, or narrow ribbon; cover it completely.
Make pretty little bows at each side of the handle.
Make a couple of pockets in the large basket for thimbles and buttons. Put a little cushion in each of the small baskets for needles and pins.
